## EXPERIENCE

University Canteen Website Project  
Web Developer | React Project

- Developed a user-friendly and responsive website for the university canteen.
- Designed a clean, modern aesthetic with teal accents and intuitive navigation for ease of use.
- Implemented key functionalities including food ordering, item search, and admin dashboard.

Dynamic Pricing in E-commerce (Project)

- Created a pricing algorithm to optimize e-commerce pricing based on supply and demand.
- Integrated dynamic elements to adjust prices, considering competitor rates and sales trends.

## Technical Projects

Job & Internship Platform (Hackathon Project):

- Designed an AI-driven job and internship platform targeting career transition issues faced by recent graduates, including advanced AI-based job matching, counseling, and internship support.

Personal Portfolio:

- Built a personal portfolio website featuring a dark-themed homepage with a structured, modern design, showcasing projects, skills, and contact information.
